

# CONCEALED FASTENING SMART PROTECTION. SERIOUS PERFORMANCE.

---

Introducing the Concealed Fastening range  
from the world leaders in roofing.

# DECRA: AN INTERNATIONAL SUCCESS STORY

Invented in New Zealand in the 1950s, stone chip coated steel roofing tiles quickly became the cornerstone of Decra's success story.

Today Decra operates plants across three continents and is owned by IKO, a global leader in the roofing industry. IKO upholds the same values that made Decra a worldwide success – ongoing innovation and relentless commitment to quality.

# REVOLUTIONARY ROOFING

Invented in New Zealand and installed in over 127 countries, Decra products have been tested and proven in some of the harshest environments on earth.

## DESIGNED FOR PEAK PERFORMANCE

- ▶ Protected by zinc-aluminium alloy for superior corrosion resistance
- ▶ Proprietary coatings provide long-lasting high performance
- ▶ Class A Fire Rated Material
- ▶ High Weight-to-Strength Ratio
- ▶ Severe Weather Resistance
- ▶ Class 4 Impact Resistance

## ENVIRONMENTALLY AWARE

- ▶ Environmentally friendly and infinitely recyclable
- ▶ Fewer framing materials needed to support the lightweight tile design
- ▶ ISO 14001 certified environmental management system
- ▶ Made with quality materials and manufactured to ISO 9001 standards

# INTRODUCING CONCEALED FASTENING

Developed by Decra, Concealed Fastening technology delivers the ultimate in performance and style.

Featuring a unique interlocking design, this innovative product range hides fasteners from both eyesight and the elements. Each low-profile panel features a calibrated fold in the head, which the nose of the next panel hooks into. Fasteners are applied vertically into the steel batten of the first panel, and then the next panel is hooked in and fastened to the steel batten above.

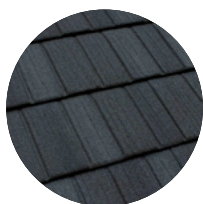

## CF SHAKE

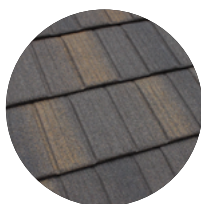

## RUSTIC CHARM OF TRADITIONAL SHAKE WITH "CONCEALED FASTENING" TECHNOLOGY

Our CF Shake has been specifically designed to embrace the rustic charm of traditional shake but with the strength and durability that can only come from a stone coated steel Decra panel. Its deep-ribbed profile enhances the shadow lines and creates visual contrast. With our world-first fully Concealed Fastening (CF) system, screws are completely hidden from sight and the elements, delivering the ultimate combination of beauty and performance.

### COLOURS - Available in textured finish

Charcoal Blend

Barkwood

Weathered Wood

### PRODUCT SPECIFICATIONS

Overall length	1335mm
Length of cover	1260mm
Width of cover	370mm
Roof cover / panel	0.47 m <sup>2</sup>
Panels / m <sup>2</sup>	2.15 / m <sup>2</sup>
Weight / panel	3.5 kg
Weight / m <sup>2</sup>	7.5 kg
Minimum roof pitch	15°

Colours are as close to the finished product as modern print processes will allow.

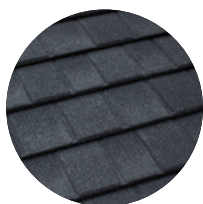

CONCEALED FASTENING

# CF SHINGLE

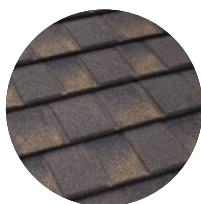

A CLASSIC SHINGLE LOOK, WITH  
HIGH-PERFORMANCE TECH:  
THE PERFECT PAIRING

An inspired twist on a traditional favourite, Decra's CF Shingle features classic asphalt shingles modernised with our innovative Concealed Fastening (CF) technology. Available in a range of colours, CF Shingle offers ultimate weather security cleverly concealed within timeless design, backed by the strength and durability of steel.

## CF SLATE

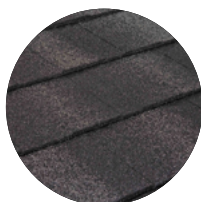

## THE LOW PROFILE APPEAL OF SLATE WITH CONCEALED FASTENING TECHNOLOGY

CF Slate has the lowest profile out of all our tiles and achieves a sleek look with subtle charm from variations in light and shade. With its exceptional durability, a CF Slate roof offers superior performance and all the advantages of stone-coated steel. CF Slate comes in a choice of natural weathered tones to recreate the visual appeal of timber, asphalt or fired-clay shingles. Featuring our Concealed Fastening technology, fixings are completely concealed from external weather conditions, removing the risk of nails rusting and water ingress. There are also no visible nails or screws leading to a clean finish.

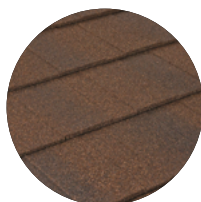

### COLOURS - Available in textured finish

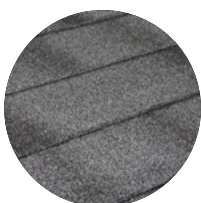

Charcoal

Mesquite

Walnut

Ashwood

Colours are as close to the finished product as modern print processes will allow.

### PRODUCT SPECIFICATIONS

Overall length	1340mm
Length of cover	1250mm
