Meeting the demands of the future, today.

Originating in New Zealand, stone coated metal roof tiles have become many people's first choice of roofing material and is seen on some of the finest homes around the world. This shift in architectural design has created a demand for similar products in all sectors of the building community, but until now the products have been a poor imitation of the higher value brands.

2

Now, Fletcher Building Roof Tile Group brings you Fortiza®, the roofing system designed specifically to meet the demand of the growing 'middle income' housing market, where budgets are tight, but overall looks are just as important.

Following research in key developing markets, Fletcher Building Roof Tile Group have designed and produced a product according to the needs of the architects and developers who specialise in the middle income sector.

3

This is the Fortiza® Roofing System.

At a time when the demand for middle income housing is growing, the cost of building materials around the world is also increasing. Fortiza is introduced to bridge this gap, sustaining quality in the face of increased demand for ever lower costs.

Product & Colour Range

Fortiza Tile

- Pitch – min./max. 15-90°
- Overall length 1330 mm
- Length of cover 1270 mm
- Width of cover 400 mm
- Upstand 25 mm
- Roof cover /tile 0.508 m²
- Tiles per m² 2
- Weight /tile Texture 2.3 kg
- Weight / m² Texture 4.6 kg

Accessories

	A Ridge	Ridge Hip	Box Barge	Side Flashing	Flat Sheet 400	Flat Sheet 490	Combination Valley

Length of cover	1900mm	1900mm	1900mm	1900mm	1900mm	1900mm	2250mm
Downturn	25mm	62mm	130mm	57mm	-	-	-
Upturn	-	-	-	86mm	-	-	25mm
Lap	100mm	100mm	100mm	100mm	-	-	150mm

Rafter or Truss Span	Battern Size
Up to 900mm	50 x 40mm
Up to 1200mm	50 x 50mm

Advanced Coating Technology Manufacture

"In the past, roofs were not really a feature of the home, they served a practical purpose. I think roofs have evolved and the roof cavity has become bigger, creating a natural air space to ventilate, and also to contain plumbing, water cylinder, storage and increasingly another room. Now when you look at a house, 50% of what you see is the roof. For this reason the importance of the design and style of the roof has greatly increased. You might say that "The roof maketh the home"

Residential Developer

"Stone coated metal roof tiles have become the preferred choice in our country. They are neater in application and require no further waterproofing or maintenance, meeting the demands of the future, today."
